COURSEWORK / SKILLS

- Front-End Development
- Database Management System (DBMS)
- OOPS
- Operating System

PROJECTS

Spotify Clone / HTML5 , CSS3 , JAVASCRIPT

- I completed a project that involved creating a basic Spotify clone using HTML, CSS and JavaScript. This project is designed to showcase my skills in front-end web development. It is a responsive web application that allows users to play music. I used HTML and CSS to design and style the interface, and implemented JavaScript to handle user input and interaction such as basic playback controls.

Personal Portfolio website / HTML5 , CSS3 , JAVASCRIPT

- I have developed personal portfolio website using HTML, CSS and JavaScript which highlights my projects and skills. HTML structures the content, CSS ensures a visually appealing design, and JavaScript adds dynamic features for a seamless user experience.

Landing page for Gym | HTML5 , CSS3

- This login page is created using HTML and CSS which provides a user-friendly interface for members to access their accounts. HTML structures the form elements, while CSS enhances the visual appeal with a clean and modern design.
